

As a member of Council for the 'Namgis First Nation, I will:

***Respect** all people who come before me whether they are fellow Council members, members of staff, a Band Member or a member of the public. I will treat these people in the manner that I would like to be treated, and I will never place them in a situation where they feel ridiculed or humiliated;*

***Maintain Confidentiality** in all matters before Council except those that are public in nature. I will not disclose any matters that have been discussed in camera as that would undermine the decision-making process and hamper free discussion on all matters before council;*

***Avoid Conflicts** of Interest in all matters coming before Council or elected staff. I will avoid being a part of any decision that affects or is affected by, or is perceived to affect or be affected by, a member of my immediate family (as defined as your spouse or common-law partner, your father, mother, and spouses mother, father including common-law partner, your brothers and sisters or your spouses brothers or sisters or common-law partner, your grandparents and spouses grandparents or common-law partner) and any relatives or any other person permanently residing with me.*

***Conduct myself** in a way that shows clearly the high standard I have set for myself and my fellow Council members as elected representatives of the Members of the 'Namgis First Nation.*

Signed this 19th day of September, 2006

Witness

Member of Council
